SCHOLARSHIP · SERVICE · LEADERSHIP

OAK HALL SCHOOL

Preparing students for ethical leadership in a diverse and global society.

You have heard about Oak Hall School and the quality education we provide, but to see us in action is the best way to fully understand our difference.

WE INVITE YOU TO TAKE A TOUR.

For more information about grades Preschool-12, call (352) 332-3609 or visit us online at oakhall.org.

Academic Excellence

Oak Hall School believes in the power of education to transform lives, unleash potential, develop talents, build character, spark imaginations, and inspire a life-long love of learning. A student can find a passion at Oak Hall and excel in academics. With over 200 colleges admitting our graduates, a bright future is not far away.

Endless Opportunity

Our competitive athletic and award-winning fine arts programs provide opportunities for leadership, teamwork, and discipline. With academics as the main focus, an array of extracurricular activities allow students to grow and become well-rounded individuals.

The comprehensive Character Education Program complements family values and goals to raise community oriented and compassionate citizens.

With over 71 clubs, 46 athletic teams, and 41 AP and honors classes, students have plenty of opportunity to develop into confident leaders.

Keeping Children Safe

At Oak Hall School, your child's safety is always a priority for our faculty and staff. In fact, security is one of the top five reasons parents send their children to our school.

A Friendly Campus Community

Oak Hall provides a real feeling of home within the school walls. With a student-teacher ratio of 11:1, it is easy for teachers and staff to invest in your child's educational journey.

The global community is not overlooked. Our program and experiential activities enrich our students' experience, and broaden their perspectives.

Our senior class performed over 11,680 hours of community service last year, and all students are encouraged to get involved.

The community is also greatly invested in Oak Hall through the encouragement, support and funding of over 540 dedicated families. With a parent satisfaction rate of 96 percent, it's no wonder that Oak Hall School is a great choice for your child.

Oak Hall School does not discriminate on the basis of race, color, sex, disability, or national or ethnic origin.

THE BEST RECIPE FOR A GROWING BUSINESS.

RECIPE FOR SUCCESS:

- HEAT UP DRIVE
- TAKE PASSION
- MIX IT UP WITH LOVE
- ADD A DASH OF PERSISTENCE

THEN GARNISH WITH A FINANCIAL PARTNER

Passion, drive and a love for what you do is vital in growing your business and we understand that at Florida Capital Bank. We value your desire to see your business grow through the ever-changing healthcare industry, and we are dedicated to finding the right blend of financial solutions for you.

Whether you are looking to grow your practice, refinance, consolidate debt, increase cash flow or simply buy new equipment, Florida Capital Bank's flexible lending products are tailored around the unique needs and challenges of healthcare professionals like you.

We are more than a team of bankers. We are the planners, caretakers and consultants of your business, ready to help with your practice, providing you time to focus on what really matters: your patients.

Add the finishing touch to grow your business.

The Alachua County Medical Society

(ACMS), established in the late 1800s, is a professional and scientific organization representing more than 600 practicing and retired physicians, medical residents and medical school students in Alachua, Levy, Dixie and Gilchrist counties. The Society is the local affiliate of the Florida and American Medical Associations.

Membership in the ACMS is voluntary; physicians are not required to join in order to practice medicine in our area. Those who choose to join, however, do so because they are interested in the same goals as other members of the Society – quality medical care for every resident in the ACMS area and advocation of the medical profession. The ACMS provides physicians:

- A Referral Service
- Legislative Representation
- Community Representation
- Public Relations
- Continuing Medical Education
- Networking Opportunities
- Educational Dinner Meetings
- House Calls magazine
- A Peer Review process

PUBLIC PROGRAMS

Physician Referral Service

The ACMS Physician Referral Service gives the public the opportunity to obtain information about member physicians and names of physicians in specific areas of speciality.

Peer Review/Grievance Program

The ACMS provides an opportunity for patients to voice concerns or complaints regarding member physicians. The ACMS Grievance Committee has been established to mediate between a patient and a physician and to

Continued on page 11

Continued from 10

expedite resolution of grievances.

We Care Physician Referral Network

We Care is the indigent care program of the ACMS. Through the We Care Network, area physicians, dentists and hospitals donate their services to those who have no other means of accessing medical care. This program, initiated by the ACMS, has been the model for programs in other societies throughout the state and is done in conjunction with the Alachua County Health Department and the Alachua County Board of County Commissioners.

Mini-Internship Program

Begun in 1983 by the ACMS and the Chamber of Commerce Leadership Gainesville Program, the mini-internship offers community leaders the opportunity to share a day in the life of a physician and has been adopted and endorsed by the Florida Medical Association. The Mini-Internship Program has been highly successful in opening the lines of communication between physicians and the community at large.

Robb House Museum

The Robb House, which houses the office of the ACMS, was once owned by one of the first husband and wife physician teams in Florida, Robert and Lucretia Robb. In 1981, it was purchased by the ACMS, restored and furnished with much of the original furniture and medical equipment used by the Robbs.

The house contains the first officially recognized medical museum in the State of Florida. The collection includes medical equipment and memorabilia from Florida physicians and hospitals. The museum is visited by school groups, historic societies, juvenile correction groups, medical students and residents. It is listed in the national Medical Museums Association directory.

Community Involvement

- Gainesville Area Chamber of Commerce
- Alachua County Health Care Board
- Alachua County Health Care Advisory Board
- Rotary Club of Gainesville

Board Certification of Physicians

Board certification status as well as other information about Florida licensed physicians can be found at the Florida Department of Health website at www.doh.state.fl.us under practitioner/ physician profiling. Board certification is overseen by the American Board of Medical Specialties® (www.abms.org).

MISSION STATEMENT OF THE AMERICAN BOARD OF MEDICAL SPECIALTIES®

The American Board of Medical Specialties (ABMS) is an organization of approved medical specialty boards. The mission of the ABMS is to maintain and improve the quality of medical care by assisting the Member Boards in their efforts to develop and utilize professional and educational standards for the evaluation and certification of physician specialists. The intent of the certification of physicians is to provide assurance to the public that a physician specialist certified by a Member Board of the ABMS has successfully completed an approved educational program and evaluation process which includes an examination designed to assess the knowledge, skills, and experience required to provide quality patient care in that specialty. The ABMS serves to coordinate the activities of its Member Boards and to provide information to the public, the government, the profession, and the Members concerning issues involving specialization and certification in medicine.

Approved by the ABMS Assembly, 9/23/93.

ACMS We Care Physician Referral Network

Tony Campo, Director

We Care Physician Referral Network
Contact Person: Tony Campo, (352) 334-7926

The We Care Physician Referral Network is a community-based initiative that coordinates volunteer physicians, dentists, hospitals, and ancillary providers to meet the medical and dental needs of uninsured and poor Alachua County residents. It is a partnership of public and private institutions, agencies, and individuals that responds to the health care needs of the community's under-served population. A health care board provides guidance to the program in response to community health issues and evaluates the efficacy of the agency's programs. The initiative started over twenty-five years ago in response to an overwhelming need for medical services for low income, uninsured residents of Alachua County.

In the 1980s, a hot topic across America was health care for the poor. Uninsured residents did not have access to primary medical services and often postponed care based on financial circumstances. Hospital emergency rooms were over-crowded with urgent health care needs and were inappropriately utilized for non-emergent medical services. A position paper was prepared and presented by Dr. Thomas Hawkins to the Alachua County Medical Society in 1984. It addressed the needs of the poor and uninsured and proposed an informal network of volunteer physicians that became the We Care Physician Referral Network. The program was staffed by Alachua County Medical Society staff and assisted 60 to 80 patients each year. A 1988 Alachua County needs assessment indicated that over 20% of the community's residents lacked health insurance and that the incidence of chronic health conditions and mortality was above the State average. The cost to human life expectancy and quality of life was enormous. The community responded by bringing together a coalition of public and private interests and formed the Alachua County Health Care Board.

The twenty-one member Health Care Board was structured to include public institutions, private sector interests, civic organizations, and low income consumers. Membership included one representative from each of the following: the Alachua County Health Department, Shands Teaching Hospital, University of Florida Faculty Group Practice, Alachua General Hospital, local nursing and pharmacy organizations, the Alachua County Medical Society, North Florida Regional Hospital, the Alachua County Dental Association, and a non-voting representative from the Alachua County Department of Social Services. The Board had at least three healthcare professionals, one attorney, representatives from at least three civic organizations, and three healthcare consumers. In 1990 the Board recommended the formal implementation of the We Care Physician Referral Network. The Network would provide necessary specialty medical services to low income, uninsured residents referred by the Alachua County Health Department, by primary care physicians in private practice, and by other primary care sites in the community. The Alachua County Health Care Board is a Commission-appointed entity with strict by-laws for membership and function. The Board continues to meet regularly and provide guidance and oversight to the We Care program in response to community health care needs.

The We Care program needed the structure of a government institution as well as the flexibility of a community-based social services agency. A program coordinator was hired and guidelines, policies, and eligibility criteria were formulated. The Alachua County Medical Society sponsored the program and provided operational and technical support. The Alachua County Board of County Commissioners allocated funding for one staff member and administrative support. Cooperative agreements were formed with government institutions and private enterprises. During the inaugural year (1990) of the formal program, the Alachua County Medical Society cultivated support among its membership, the three local hospitals pledged their support, and the value of volunteer physician

Continued on page 13

Continued from 12

and hospital care exceeded $400,000.

The We Care Physician Referral Network model was so successful that physicians and staff from the Alachua County Medical Society took the program on the road (1991-93). They met with medical societies throughout Florida and provided technical assistance to them as they developed their own program. Over the next five years, volunteer medical programs were established across the State of Florida, from the panhandle eastward to the Atlantic coast, south to the tip of the peninsula, and around the gulf coast. The programs that arose were not cookie-cutter copies of the Alachua County We Care model. Instead, communities were encouraged to formulate programs based on the needs of the local community. The Florida Medical Association recognized the Alachua County Medical Society's We Care Physician Referral Network as an innovative and effective model. The program received recognition from the State Department of Health and the We Care director provided training and technical assistance to many other communities.

By the end of 1994, Alachua County physicians and hospitals had provided nearly 5 million dollars in free health care to hundreds of uninsured residents via the We Care program.

In response to a growing need for dental care, an oral health component of the We Care program was considered. The anecdotal evidence was frightening and clear. Oral health was not a high priority for residents with incomes below federal poverty levels. Adults with low incomes rarely received preventive dental care and often sought care only when in pain. Poor oral dentition affected overall health, impacted work performance, and needed to be addressed. In 1993, Project Dentists Care was established in cooperation with the Alachua County Dental Association and during its first year of operation provided nearly $50,000 in free dental services to the uninsured and needy. When demand for volunteer dental services exceeded the resources of volunteer dentists in private practice, Santa Fe College, a local educational institution with a dental hygiene program, offered to assist the program. This new collaboration resulted in the expansion of services. Participants received pre-treatment evaluations, cleanings, x-rays, and treatment plans as well as post-treatment maintenance. A brand new clinic-based initiative was also developed at Santa Fe College, in cooperation with the University of Florida College of Dentistry and the Alachua County Dental Association. The We Care Oral Health Component has provided over $1.7 million in volunteer dental care since its inception in January 1993.

The Alachua County Medical Society's We Care Physician Referral Network is a work-in-progress; a dynamic collaboration of private and public enterprise. It is comprised of three components, Primary Care, Oral Health, and Specialty Care. It is supported by physicians, dentists, local hospitals, laboratories, home health agencies, mental health professionals, and a variety of ancillary service providers. Since 1990 the program has received over 25,000 requests for volunteer medical and dental care. More than half of those requests were met by volunteer professionals. The cumulative total of volunteer medical and dental services provided exceeds $80,000,000.00 (value to December '15).

Programs based on the Alachua County We Care model provide volunteer services throughout Florida. A 2014/15 Department of Health report on statewide volunteerism documented over 300 million dollars in volunteer medical and dental care. The We Care model represents the best efforts of volunteer professionals, social services agencies, State and local governments, collaborating to provide for the less fortunate in a dignified and effective manner.

Revised 8/23/16

1600 SW Archer Road, Gainesville, FL 32601 • 352-265-5555

Your Heart is in the Right Place

The Cardiac & Vascular Institute

The integration of Cardiology Associates of Gainesville and Interventional Cardiologists of Gainesville in 2012 has brought together two large cardiology practices representing more than 30 years of service to the Gainesville and Lake City communities. The Cardiac & Vascular Institute is committed to providing the highest quality health services to our patients. Although our practice continues to grow, adding more physicians and services, our number one priority and reason for existence remain the same: to care for our patients.

The physicians of The Cardiac & Vascular Institute strive to be the most capable and caring cardiovascular providers in the region. We are board-certified in every aspect and subspecialty of cardiology, maintaining continued medical education and ongoing training to keep our knowledge and skills at their best. As we add new physicians, we are able to provide our patients with more services and improved availability to our practice. We want to be there for our patients when they need us, and we aim to provide here in our local community the highest level of cardiovascular care available anywhere.

Visit us online at: **www.TCAVI.com** for a complete listing of our Cardiovascular Services.

Specialty Definitions

The following specialty definitions are from the American Medical Association (www.ama-assn.org) and the American Board of Medical Specialties (www.abms.org). Some definitions may have been abbreviated for conciseness. For more detailed definitions, go to these web sites.

Allergy and Immunology – evaluation, diagnosis and management of disorders potentially involving the immune system.

Anesthesiology – pain relief and maintenance, or restoration of a stable condition during and immediately following an operation or an obstetric or a diagnostic procedure.

Cardiovascular Diseases – diseases of the heart, lungs and blood vessels and managing complex cardiac conditions such as heart attacks and life-threatening abnormal heart beat rhythms.

Dermatology – diagnosis and treatment of patients with disorders of the skin, mouth, external genitals, hair and nails.

Dermatopathology – diagnosis and treatment of diseases of the skin.

Emergency Medicine – recognition, stabilization, evaluation, treatment and disposition of patients with acute illness or injury.

Endocrinology – disorders of the endocrine system such as the thyroid and adrenal glands; includes diabetes, metabolic and nutritional disorders, pituitary diseases, and menstrual and sexual disorders.

Family Practice – prevent, diagnose and treat a wide variety of ailments in patients of all ages, with special emphasis on care of families on a continuing basis.

Gastroenterology – digestive system disorders (the stomach, bowels, liver and gallbladder), gastrointestinal and pancreatic diseases. Performs colonoscopy and endoscopic procedures. Treats abdominal pain, ulcers, diarrhea, cancer and jaundice.

General Practice – diagnosis and treatment of disease by both medical and minor surgical methods for patient age groups.

General Surgery – surgeon establishes the diagnosis and provides the preoperative, operative and postoperative care to surgical patients and is usually responsible for the comprehensive management of the trauma victim and the critically ill. This includes organ transplantation.

Geriatric Medicine – focus on older patients for prevention, diagnosis and treatment and rehabilitation of disorders common to old age.

Gynecology – diagnosis and treatment of diseases of the female reproductive system.

Hematology/Oncology – blood diseases and cancer; treats diseases of the blood and blood forming organs (i.e., spleen, lymph nodes, bone marrow and thymus) as well as neoplastic diseases arising in any organ system.

Hepatobiliary Surgery - replacement of a diseased liver through transplantation with a healthy one from an organ donor.

Hospitalist – physicians who provide care to hospitalized patients only.

Infectious Diseases – infectious diseases of all types and in all organs, conditions requiring selective use of antibiotics, AIDs patients and patients with unexplained fevers, and conditions associated with travel.

Internal Medicine – long-term, comprehensive care provided in the office and the hospital, managing both common illnesses and complex problems for adolescents, adults and the elderly.

Maternal and Fetal Medicine – cares for or provides consultation on patients with complications of pregnancy.

Maxillofacial Surgery – surgical specialists of dentistry who treat conditions, defects, injuries and esthetic aspects of the mouth, teeth, jaws and face.

Neonatal/Perinatal Medicine – care for sick newborn infants.

Nephrology, Hypertension and Renal Transplantation – kidney disorders, high blood pressure, diabetic kidney disease, fluid and mineral balance, dialysis of body wastes when the kidneys do not function, and kidney transplantation.

Neurology – diagnosis and treatment of all categories of disease or impaired function of the brain, spinal cord, peripheral nerves, muscles and autonomic nervous system, as well as the blood vessels that relate to these structures.

Neurosurgery – operative and non operative management (i.e., prevention, diagnosis, evaluation, treatment critical care and rehabilitation) of disorders of the central, peripheral and autonomic nervous systems.

Obstetrics and Gynecology – pregnancy, both normal or problematic, and women's reproductive tract disorders. Includes Reproductive Endocrinology and Infertility.

Oncology/Hematology – see definition for Hematology/Oncology.

Ophthalmology – eye disorders and surgery.

Orthopaedic Surgery – preservation, investigation and restoration of the form and function of the extremities, spine and associated structures by medical, surgical and physical means.

Otolaryngology – facial plastic and reconstructive surgery are fundamental areas of expertise in Otolaryngology; focuses on the knowledge, skill and understanding required to perform esthetic, plastic and reconstructive surgery of the face, head and neck.

Pathology – essential nature of disease, especially the structural and functional changes in tissues and organs of the body that cause or are caused by disease, detected through microscopic examination of tissue specimens, cells and body fluids and from clinical laboratory tests on body fluids and secretions.

Pediatrics – physical, emotional and social health of children from birth to young adulthood.

Pediatric Cardiology – comprehensive care for children (from fetal life to young adulthood) with heart disorders.

Pediatric Endocrinology – diseases in infants, children and adolescents resulting from an abnormality in the endocrine glands (glands that secrete hormones) such as diabetes mellitus; growth failure; unusual size for age; early or late pubertal development; birth defects; the genital region and disorders of the thyroid, of the adrenal and of the pituitary glands.

Continued on Page 122

Continued From page 121

Pediatric Gastroenterology – disorders of the digestive systems of infants, children and adolescents.

Pediatric Hematology/Oncology – recognition and management of hematologic (blood disorders) and oncologic (cancerous) diseases and knowledge of general pediatrics.

Pediatric Nephrology – kidney disorders in children.

Pediatric Neurology – diagnosis and treatment of neurologic diseases and disorders in children. (see Neurology)

Pediatric Neurosurgery – nervous system diseases and disorders in infants and children, their diagnosis, evaluation, treatment, critical care and rehabilitation, including congenital disorders, neoplasia, trauma, infection and vascular disease.

Pediatric Ophthalmology – children's eye diseases and Strabismus in children and adults.

Pediatric Pathology – studies tissues, organs and bodily fluids under a microscope to diagnose diseases in children from birth through the teenage years.

Pediatric Pulmonology – diagnosis and treatment of lung or airway disorders in children.

Pediatric Radiology – is concerned with the application of all forms of diagnostic imaging to the unique clinical/pathophysiologic problems of the newborn, infant, child and adolescent.

Pediatric Surgery – surgical conditions in premature and newborn infants, children and adolescents.

Physical Medicine and Rehabilitation – coordinate return to optimal functioning in individuals with musculoskeletal and neurological disorders, such as low back injury, spinal cord injuries and stroke victims.

Plastic and Reconstructive Surgery – esthetic, plastic and reconstructive surgery of the body performed on injured or abnormal structures of the body, generally performed to improve functions, but may also be done to approximate a normal appearance.

Plastic Surgery – repair and reconstruction of defects of form and function of the skin and its underlying musculoskeletal system, with emphasis on the craniofacial structures, the oropharynx, the upper and lower limbs, the breast and the external genitalia.

Psychiatry – prevention, diagnosis and treatment of mental, addictive and emotional disorders, such as psychoses, depression, anxiety disorders, substance abuse disorders, development disabilities, sexual dysfunctions and adjustment reaction.

Psychiatry, Child – diagnosis and treatment of mental, addictive and emotional disorders of childhood and adolescence.

Public Health – focuses on the health of individuals and defined populations to protect, promote and maintain health and well-being, and to prevent disease, disability and premature death.

Pulmonary Diseases – lung and airway diseases, such as pneumonia, cancer, pleurisy, asthma, occupational diseases, bronchitis, sleep disorders, emphysema and other complex disorders of the lungs.

Radiation Oncology – (also referred to as Therapeutic Radiology) therapeutic applications of radiant energy and its modifiers and the study and management of disease, especially malignant tumors.

Radiology – evaluation of x-rays and related procedures such as ultrasound, CT scan and MRI.

Radiology, Diagnostic – medical diagnosis and therapeutic procedures using x-rays and related procedures.

Resident – medical school graduate receiving specialty training.

Rheumatology – diseases of joints, muscle, bones and tendons such as arthritis, back pain, muscle strains common athletic injuries and collagen diseases.

Student Health Care Center, UF – physicians on staff at the University of Florida Student Health Care Center (infirmary).

Thoracic Surgery – operative, perioperative care and critical care of patients with pathologic conditions within the chest, including surgical care of coronary artery disease; cancers of the lung, esophagus and chest wall; abnormalities of the great vessels and heart valves; congenital anomalies; tumors of the mediastinum and diseases of the diaphragm.

Urology – diagnosis and treatment of disorders of the kidneys or urinary tract.

Vascular Surgery – surgical management of disorders of the blood vessels excluding those immediately adjacent of the heart, lungs or brain.

LIST OF ABBREVIATIONS:

D.D.S.	Doctor of Dental Sciences
D.M.D.	Doctor of Dental Medicine
D.O.	Doctor of Osteopathy
DR HC	Doctor, Honoris Causa
F.A.C.C.	Fellow, American College of Cardiology
F.A.C.O.G.	Fellow of the American College of Obstetricians and Gynecologists
F.A.A.P.	Fellow of the American Academy of Pediatrics
F.A.A.C.P.	Fellow of the American Academy Clinical Psychology
F.A.C.E.P.	Fellow of the American College of Emergency Physicians
F.A.C.P.	Fellow of the American College of Physicians
F.A.C.S.	Fellow of the American College of Surgeons
F.A.H.A.	Fellow of the American Heart Association
F.C.P.(S.A.)	Fellow of the College of Physicians of South Africa
F.E.S.C.	Fellow of the European Society of Cardiology
F.R.C.S.	Fellow of the Royal College of Surgeons of England
F.S.C.A.I.	Fellow of the Society for Cardiovascular Angiography and Interventions
J.D.	Juris Doctorate
M.A.C.C.	Master of the American College of Cardiology
M.B.A.	Master of Business Administration
M.B.B.S.	Bachelor of Medicine, Bachelor of Surgery
M.D.	Medical Doctor (Doctor of Medicine)
M.P.H.	Master of Public Health
M.S.	Master of Science
P.A.	Professional Association
Ph.D.	Doctor of Philosophy

PRACTICE MANAGEMENT network

www.jmco.com/pmn

The Practice Management Network.

Because your practice's health is just as important as your patients' health.

Learning and sharing with others in your field brings important knowledge to your practice, from new technologies to updates on regulations. That's why The Alachua County Medical Society and James Moore & Company created **the Practice Management Network.**

The Practice Management Network keeps physicians and practice administrators informed of industry developments that help you better run your practice. **Our quarterly luncheons** – ***free for ACMS members and their practice managers/ administrators*** – **cover topics such as regulatory updates, telehealth, human resources and legal issues.** You'll also have a chance to network with other health professionals to make connections and share ideas.

Contact Jackie Owens, Interim Executive Vice President with the Alachua County Medical Society, acmsassist@acms.net, or Jay Hutto, CPA/ABV/CFF, CVA and Partner at James Moore & Company, jay.hutto@jmco.com, to find out more about the Practice Management Network and sign up to be notified about our next luncheon!

Savvy Caregiver for Families Program

For information about these classes in Alachua County, please call:

Ana M. Robles-Rhoads at (352) 692-5265

To find out about classes in other counties call:

Tom Rinkoski at (352) 692-5226

Savvy Caregiver is a six week training designed for caregivers who assist persons with Dementia and/or Alzheimer's Disease.

The Savvy Caregiver Program is a unique approach to family caregiver education. The program offers ideas gathered from many disciplines and sources. Throughout the series caregivers are urged to learn, develop and modify approaches they can use to lessen their own stress and improve their particular caregiver situation

This course is ***free*** to all family caregivers, but you need to register! Those completing this course will:

- Increase skills and knowledge for caregiving
- Understand dementia and its progressive cognitive losses
- Gain confidence to set and alter caregiver goals
- Learn effective ways to increase family involvement
- Reduce adverse impacts of caregiving

Are You Prepared for a Cardiac Emergency?

What are the first two and most important actions you must take in a cardiac emergency? 950,000 people experience heart attacks each year, so the odds are, at sometime in your life, you will encounter someone who is having a heart attack; most likely it will be someone you know. Being armed with CPR knowledge greatly enhances the chance of a victim's survival, because every minute counts.

North Central Florida Safety Council offers tailored-to-your-schedule CPR classes, including the American Heart Association healthcare provider course, in group or individual sessions at your location or at the Safety Council, and at competitive rates.

First Aid training is available as well, providing basic knowledge, skills and the confidence to respond to emergencies.

Be safe. Be smart. Be ready. Call us at the North Central Florida Safety Council for details, 352-377-2566, visit www.ncfsc.com, or stop by 3710 NW 51st Street, just off NW 39th Avenue.

Delores sees her scar as evidence of BRAVERY.

We see it as a reminder of how unique she is.

No two alike. That's the truth about scars — and the individuals who wear them. At UF Health, it's also how we believe in practicing medicine. Delores Lewis faced a future of being dependent on others without a perfectly designed spine surgery. Her neurosurgery team developed a plan to fit her, precisely. Thanks to that unique approach, Delores is back to being fiercely independent — and totally one of a kind.

Seeing no two stories alike is how we move medicine forward. Watch them for yourself at **NoTwoAlike.org.**
