Faith. A powerful element in fighting cancer.

Joyce Dean has more energy than most 70-year-olds. She's full of stories about love, family and her days as the first African American professor at Edison Community College. 25 years ago, Joyce went for a routine annual physical. She was diagnosed with advanced multiple myeloma—a cancer with a grim prognosis at the time. She was referred to Florida Cancer Specialists, and she's been a patient ever since.

Living with cancer hasn't been easy, but with over two decades of compassionate, cutting-edge care, and a little faith, Florida Cancer Specialists has shown Joyce that when hope and science join forces, great outcomes can happen.

"Without Florida Cancer Specialists, I wouldn't be here."

-Joyce Dean, Patient & Cancer Fighter

Where hope is powered by science.™

Welcome to the ACMS 2019 Physicians Directory. All Doctors in Alachua County are listed and classified by their medical specialty and/or Board Certification. There is an index of physicians in the back of the book to find a specific doctor by name, and a listing of Specialty Definitions. Every effort was made to verify all physician information, which was current as of December 2019. Please notify us of any omissions or corrections to the information provided. Go to our website to download an electronic version of this publication (acms.net) and follow us on social media:

Members of the Alachua County Medical Society (ACMS) are identified with photographs or a medical icon. This Directory is a public service of the Alachua County Medical Society.

Alachua County Medical Society

Established in the late 1800s, the Alachua County Medical Society (ACMS) is a professional and scientific organization representing more than 600 practicing and retired physicians, medical residents and medical school students in Alachua, Levy, Dixie and Gilchrist counties. The Society is the local affiliate of the Florida and American Medical Associations.

Membership in the ACMS is voluntary; physicians are not required to join in order to practice medicine in our area. Those who choose to join, however, do so because they are interested in the same goals as other members of the Society – quality medical care for every resident in the ACMS area and advocation of the medical profession. The ACMS provides physicians with:

- We Care Physician Volunteer Network
- Continuing Medical Education
- Professional Development Opportunities
- Practice Management Network
- Public Referral Service
- Legislative Representation
- Community Representation
- Networking Opportunities
- Publication Opportunities in *House Calls* magazine

PUBLIC PROGRAMS

Physician Referral Service

The ACMS Physician Referral Service gives the public the opportunity to obtain information about member physicians and names of physicians in specific areas of speciality.

We Care Physician Referral Network

We Care provides for the medical and dental needs of underserved populations in the tri-county area. Through the We Care Network, area physicians, dentists and hospitals donate their services to those who have no other means of accessing medical care. This program, initiated by the ACMS, has been the model for programs in other societies throughout the state and is done in conjunction with the Alachua County Health Department and the Alachua County Board of County Commissioners.

Community Involvement

- Gainesville Area Chamber of Commerce
- Alachua County Health Care Board
- Alachua County Health Care Advisory Board

Board Certification of Physicians

Board certification status as well as other information about Florida licensed physicians can be found at the Florida Department of Health website at floridahealth.gov under licensing and regulation. Board certification is overseen by the American Board of Medical Specialties® (www.abms.org).

MISSION STATEMENT OF THE AMERICAN BOARD OF MEDICAL SPECIALTIES®

The American Board of Medical Specialties (ABMS) is an organization of approved medical specialty boards. The mission of the ABMS is to maintain and improve the quality of medical care by assisting the Member Boards in their efforts to develop and utilize professional and educational standards for the evaluation and certification of physician specialists. The intent of the certification of physicians is to provide assurance to the public that a physician specialist certified by a Member Board of the ABMS has successfully completed an approved educational program and evaluation process which includes an examination designed to assess the knowledge, skills, and experience required to provide quality patient care in that specialty. The ABMS serves to coordinate the activities of its Member Boards and to provide information to the public, the government, the profession, and the Members concerning issues involving specialization and certification in medicine.

Approved by the ABMS Assembly, 9/23/93

Your patients are thriving. How about your practice?

Your practice is also a business, so maintaining a healthy bottom line will help you fulfill your mission. For over 50 years, James Moore & Company has been the CPA firm of choice for healthcare professionals. From outsourced accounting to revenue cycle enhancement, we'll help you keep your practice in good financial health.

Contribute to the Raise The Roof Campaign!

Raise the Roof on the Robb House Medical Museum!

We need your help to replace the roof of the historic Robb House Medical Museum. The Robb House was built in 1878 and was the home and medical office of physicians Sarah Lucretia and Robert Robb. Sarah Lucretia Robb was the first female physician in Alachua County, practicing medicine from 1884 to 1917.

The Robb House was renovated by the Alachua County Alliance and ACMS Community in 1981 and the roof is once again in need of replacement. Join our "Raise The Roof" Campaign to help us replace the roof on this historic treasure. Tax deductible donations may be made online at:

acms.net/robb-house-medical-museum/

We Care Physician Referral Network
(352) 334-7926

The We Care Physician Referral Network is a community-based initiative that coordinates volunteer physicians, dentists, hospitals, and ancillary providers that has been serving the medical and dental needs of uninsured and low-income Alachua County residents for over twenty-five years. It is a partnership of public and private institutions, agencies, and individuals that responds to the health care needs of the community's under-served population. A health care board provides guidance to the program in response to community health issues and evaluates the efficacy of the agency's programs.

In the 1980s, low-income and uninsured residents did not have access to primary medical services and often postponed care based on financial circumstances. Hospital emergency rooms were over-crowded with urgent health care needs and were inappropriately utilized for non-emergency medical services. A position paper was prepared and presented by Dr. Thomas Hawkins to the Alachua County Medical Society in 1984. It addressed these needs and proposed an informal network of volunteer physicians that became the We Care Physician Referral Network. The program was staffed by Alachua County Medical Society staff and assisted 60 to 80 patients each year. A 1988 Alachua County needs assessment indicated that over 20% of the community's residents lacked health insurance and that the incidence of chronic health conditions and mortality was above the State average. The cost to human life expectancy and quality of life was enormous. The community responded by bringing together a coalition of public and private interests and formed the Alachua County Health Care Board.

The twenty-one member Health Care Board was structured to include public institutions, private sector interests, civic organizations, and low income consumers. Membership included one representative from each of the following: the Alachua County Health Department, Shands Teaching Hospital, University of Florida Faculty Group Practice, Alachua General Hospital, local nursing and pharmacy organizations, the Alachua County Medical Society, North Florida Regional Hospital, the Alachua County Dental Association, and a non-voting representative from the Alachua County Department of Social Services. The Board had at least three healthcare professionals, one attorney, representatives from at least three civic organizations, and three healthcare consumers. In 1990 the Board recommended the formal implementation of the We Care Physician Referral Network. The Network would provide necessary specialty medical services to low income, uninsured residents referred by the Alachua County Health Department, by primary care physicians in private practice, and by other primary care sites in the community. The Board continues to meet regularly and provide guidance and oversight to the We Care program in response to community health care needs.

The We Care program needed the structure of a government institution as well as the flexibility of a community-based social services agency. A program coordinator was hired and guidelines, policies, and eligibility criteria were formulated. The Alachua County Medical Society sponsored the program and provided operational and technical support. The Alachua County Board of County Commissioners allocated funding for one staff member and administrative support. Cooperative agreements were formed with government institutions and private enterprises. During the inaugural year (1990) of the formal program, the Alachua County Medical Society cultivated support among its membership, the three local hospitals pledged their support, and the value of volunteer physician and hospital care exceeded $400,000.

By the end of 1994, Alachua County physicians and hospitals had provided nearly 5 million dollars in free health care to hundreds of uninsured residents via the We Care program.

In response to a growing need for dental care, an oral health component of the We Care program was considered. The anecdotal evidence was frightening and clear. Oral health was not a high priority for residents with incomes below federal poverty levels. Adults with low incomes rarely received preventive dental care and often sought care only when in pain. Poor oral dentition affected overall health, impacted work performance, and needed to be addressed. In 1993, Project Dentists Care was established in cooperation with the Alachua County Dental Association and during its first year of operation provided nearly $50,000 in free dental services to the uninsured and needy. When demand for volunteer dental services exceeded the resources of volunteer dentists in private practice, Santa Fe College, a local educational institution with a dental hygiene program, offered to assist the program. This new collaboration resulted in the expansion of services. Participants received pre-treatment evaluations, cleanings, x-rays, and treatment plans as well as post-treatment maintenance. A brand new clinic-based initiative was also developed at Santa Fe College, in cooperation with the University of Florida College of Dentistry and the Alachua County Dental Association. The We Care Oral Health Component has provided over $1.7 million in volunteer dental care since its inception in January 1993.

The Alachua County Medical Society's We Care Physician Referral Network is a work-in-progress; a dynamic collaboration of private and public enterprise. It is comprised of three components, Primary Care, Oral Health, and Specialty Care. It is supported by physicians, dentists, local hospitals, laboratories, home health agencies, mental health professionals, and a variety of ancillary service providers. Since 1990 the program has received over 25,000 requests for volunteer medical and dental care. More than half of those requests were met by volunteer professionals. Alachua County Volunteer medical services totaled $5,892,704 in 2018 with the cumulative total of volunteer medical and dental services provided to date exceeding $92,980,000 (value to December 2018).

The We Care model represents the best efforts of volunteer professionals, social services agencies, State and local governments, collaborating to provide for the less fortunate in a dignified and effective manner.

Specialty Definitions

The following specialty definitions are from the American Medical Association (www.ama-assn.org) and the American Board of Medical Specialties (www.abms.org). Some definitions may have been abbreviated for conciseness.

Allergy and Immunology – evaluation, diagnosis and management of disorders potentially involving the immune system.

Anesthesiology – pain relief and maintenance, or restoration of a stable condition during and immediately following an operation or an obstetric or a diagnostic procedure.

Cardiovascular Diseases – diseases of the heart, lungs and blood vessels and managing complex cardiac conditions such as heart attacks and life-threatening abnormal heart beat rhythms.

Dermatology – diagnosis and treatment of patients with disorders of the skin, mouth, external genitals, hair and nails.

Dermatopathology – diagnosis and treatment of diseases of the skin.

Emergency Medicine – recognition, stabilization, evaluation, treatment and disposition of patients with acute illness or injury.

Endocrinology – disorders of the endocrine system such as the thyroid and adrenal glands; includes diabetes, metabolic and nutritional disorders, pituitary diseases, and menstrual and sexual disorders.

Family Practice – prevent, diagnose and treat a wide variety of ailments in patients of all ages, with special emphasis on care of families on a continuing basis.

Gastroenterology and Endoscopy – digestive system disorders (the stomach, bowels, liver and gallbladder), gastrointestinal and pancreatic diseases. Performs colonoscopy and endoscopic procedures. Treats abdominal pain, ulcers, diarrhea, cancer and jaundice.

General Practice – diagnosis and treatment of disease by both medical and minor surgical methods for patient age groups.

General Surgery – surgeon establishes the diagnosis and provides the preoperative, operative and postoperative care to surgical patients and is usually responsible for the comprehensive management of the trauma victim and the critically ill. This includes organ transplantation.

Geriatric Medicine – focus on older patients for prevention, diagnosis and treatment and rehabilitation of disorders common to old age.

Gynecology – diagnosis and treatment of diseases of the female reproductive system.

Hematology/Oncology – blood diseases and cancer; treats diseases of the blood and blood forming organs (i.e., spleen, lymph nodes, bone marrow and thymus) as well as neoplastic diseases arising in any organ system.

Hepatobiliary Surgery - replacement of a diseased liver through transplantation with a healthy one from an organ donor.

Hospitalist – physicians who provide care to hospitalized patients only.

Infectious Diseases – infectious diseases of all types and in all organs, conditions requiring selective use of antibiotics, AIDs patients and patients with unexplained fevers, and conditions associated with travel.

Internal Medicine – long-term, comprehensive care provided in the office and the hospital, managing both common illnesses and complex problems for adolescents, adults and the elderly.

Maternal and Fetal Medicine – cares for or provides consultation on patients with complications of pregnancy.

Maxillofacial Surgery – surgical specialists of dentistry who treat conditions, defects, injuries and esthetic aspects of the mouth, teeth, jaws and face.

Neonatal/Perinatal Medicine – care for sick newborn infants.

Nephrology, Hypertension and Renal Transplantation – kidney disorders, high blood pressure, diabetic kidney disease, fluid and mineral balance, dialysis of body wastes when the kidneys do not function, and kidney transplantation.

Neurology – diagnosis and treatment of all categories of disease or impaired function of the brain, spinal cord, peripheral nerves, muscles and autonomic nervous system, as well as the blood vessels that relate to these structures.

Neurosurgery – operative and non operative management (i.e., prevention, diagnosis, evaluation, treatment critical care and rehabilitation) of disorders of the central, peripheral and autonomic nervous systems.

Obesity Medicine - the field of medicine dedicated to the comprehensive care of patients with obesity.

Obstetrics and Gynecology – pregnancy, both normal or problematic, and women's reproductive tract disorders. Includes Reproductive Endocrinology and Infertility.

Oncology/Hematology – see definition for Hematology/Oncology.

Ophthalmology – eye disorders and surgery.

Orthopaedic Surgery – preservation, investigation and restoration of the form and function of the extremities, spine and associated structures by medical, surgical and physical means.

Otolaryngology – diseases and disorders of the ear, nose, throat (ENT) and related structures of the head and neck, including the sinuses, larynx (voice box), oral cavity, and upper pharynx (mouth and throat). Subspecialties include otology/neurotology (ears, balance, and tinnitus), allergy, facial plastic and reconstructive surgery, head and neck, laryngology (throat), and rhinology (nose).

Pathology – essential nature of disease, especially the structural and functional changes in tissues and organs of the body that cause or are caused by disease, detected through microscopic examination of tissue specimens, cells and body fluids and from clinical laboratory tests on body fluids and secretions.

Pediatrics – physical, emotional and social health of children from birth to young adulthood.

Pediatric Cardiology – comprehensive care for children (from fetal life to young adulthood) with heart disorders.

Pediatric Endocrinology – diseases in infants, children and adolescents resulting from an abnormality in the endocrine glands (glands that secrete hormones) such as diabetes mellitus; growth failure; unusual size for age; early or late pubertal development; birth defects; the geni-

Continued on Page 83

Continued From page 82

tal region and disorders of the thyroid, of the adrenal and of the pituitary glands.

Pediatric Gastroenterology – disorders of the digestive systems of infants, children and adolescents.

Pediatric Hematology/Oncology – recognition and management of hematologic (blood disorders) and oncologic (cancerous) diseases and knowledge of general pediatrics.

Pediatric Nephrology – kidney disorders in children.

Pediatric Neurology – diagnosis and treatment of neurologic diseases and disorders in children. (see Neurology)

Pediatric Neurosurgery – nervous system diseases and disorders in infants and children, their diagnosis, evaluation, treatment, critical care and rehabilitation, including congenital disorders, neoplasia, trauma, infection and vascular disease.

Pediatric Pathology – studies tissues, organs and bodily fluids under a microscope to diagnose diseases in children from birth through the teenage years.

Pediatric Pulmonology – diagnosis and treatment of lung or airway disorders in children.

Pediatric Radiology – is concerned with the application of all forms of diagnostic imaging to the unique clinical/pathophysiologic problems of the newborn, infant, child and adolescent.

Pediatric Surgery – surgical conditions in premature and newborn infants, children and adolescents.

Physical Medicine and Rehabilitation – coordinate return to optimal functioning in individuals with musculoskeletal and neurological disorders, such as low back injury, spinal cord injuries and stroke victims.

Plastic and Reconstructive Surgery – esthetic, plastic and reconstructive surgery of the body performed on injured or abnormal structures of the body, generally performed to improve functions, but may also be done to approximate a normal appearance.

Plastic Surgery – repair and reconstruction of defects of form and function of the skin and its underlying musculoskeletal system, with emphasis on the craniofacial structures, the oropharynx, the upper and lower limbs, the breast and the external genitalia.

Psychiatry – prevention, diagnosis and treatment of mental, addictive and emotional disorders, such as psychoses, depression, anxiety disorders, substance abuse disorders, development disabilities, sexual dysfunctions and adjustment reaction.

Psychiatry, Child – diagnosis and treatment of mental, addictive and emotional disorders of childhood and adolescence.

Public Health – focuses on the health of individuals and defined populations to protect, promote and maintain health and well-being, and to prevent disease, disability and premature death.

Pulmonary Diseases – lung and airway diseases, such as pneumonia, cancer, pleurisy, asthma, occupational diseases, bronchitis, sleep disorders, emphysema and other complex disorders of the lungs.

Radiation Oncology – (also referred to as Therapeutic Radiology) therapeutic applications of radiant energy and its modifiers and the study and management of disease, especially malignant tumors.

Radiology – evaluation of x-rays and related procedures such as ultrasound, CT scan and MRI.

Radiology, Diagnostic – medical diagnosis and therapeutic procedures using x-rays and related procedures.

Resident – medical school graduate receiving specialty training.

Rheumatology – diseases of joints, muscle, bones and tendons such as arthritis, back pain, muscle strains common athletic injuries and collagen diseases.

Student Health Care Center, UF – physicians on staff at the University of Florida Student Health Care Center (infirmary).

Thoracic Surgery – operative, perioperative care and critical care of patients with pathologic conditions within the chest, including surgical care of coronary artery disease; cancers of the lung, esophagus and chest wall; abnormalities of the great vessels and heart valves; congenital anomalies; tumors of the mediastinum and diseases of the diaphragm.

Urology – diagnosis and treatment of disorders of the kidneys or urinary tract.

Vascular Surgery – surgical management of disorders of the blood vessels excluding those immediately adjacent of the heart, lungs or brain.

LIST OF ABBREVIATIONS:

D.D.S.	Doctor of Dental Sciences
DMD	Doctor of Dental Medicine
DO	Doctor of Osteopathy
DR HC	Doctor, Honoris Causa
FACC	Fellow, American College of Cardiology
FACOG.	Fellow of the American College of Obstetricians and Gynecologists
FAAP.	Fellow of the American Academy of Pediatrics
FAACP.	Fellow of the American Academy Clinical Psychology
FACEP.	Fellow of the American College of Emergency Physicians
FACP	Fellow of the American College of Physicians
FACS.	Fellow of the American College of Surgeons
FAHA.	Fellow of the American Heart Association
FCP.(S.A.)	Fellow of the College of Physicians of South Africa
FESC.	Fellow of the European Society of Cardiology
FRCS.	Fellow of the Royal College of Surgeons of England
FSCAI	Fellow of the Society for Cardiovascular Angiography and Interventions
JD	Juris Doctorate
MACC.	Master of the American College of Cardiology
M.B.A.	Master of Business Administration
MBBS.	Bachelor of Medicine, Bachelor of Surgery
MD	Medical Doctor (Doctor of Medicine)
M.P.H.	Master of Public Health
M.S.	Master of Science
P.A.	Professional Association
PhD	Doctor of Philosophy

Haven's E.T. York Hospice Care Center in Gainesville

Proudly serving patients and families wherever they call home in North Florida since 1979.

Hospice Care

Haven offers compassionate care and support to adults and children with life-limiting illness and their families, which address the physical, psychosocial, emotional and spiritual needs associated with advanced illness while respecting each individual's goals, beliefs and wishes. Haven's team of medical providers and staff will expertly manage pain and symptoms at home or in a variety of settings including hospitals, nursing homes or assisted living facilities.

Hospice Care Centers

Haven cares for over 90 percent of patients in their home or wherever they call home. But when there is a need for short-term inpatient care for pain control or symptom management that typically cannot be provided in a patient's home, Haven offers hospice care centers in Gainesville, Chiefland, Lake City, Orange Park and Palatka. Originally built in 1996, the E.T. York Hospice Care Center in Gainesville was recently expanded to 30 private rooms to meet the growing needs of hospice patients and their families in the Gainesville area. Family members and friends, including children, are welcome 24 hours a day. Haven also welcomes visits from family pets.

Other Haven Programs

In addition to providing comfort through compassionate delivery of hospice services to adults and children, Haven offers Transitions, Palliative Care Consultations and Advance Care Planning with a patient-centric focus.

How Do I Make a Referral?

Let us share how we can help you provide quality of life at the end of life for your patients. Call 877.379.6270 today.

When health becomes a challenge, we will be your haven.

877.379.6270 | www.BeYourHaven.org

Serving advanced illness needs in North Florida since 1979. Licensed as a not-for-profit hospice since 1980. Haven does not discriminate on the basis of race, color, national origin, age, disability, or sex. Si habla español, tiene a su disposición servicios gratuitos de asistencia lingüística. Llame al 800.727.1889. Si w pale Kreyòl Ayisyen, gen sèvis èd pou lang ki disponib gratis pou ou. Rele 800.727.1889.

When physicians reference Florida's #1 research hospital, they're talking about us.

Home to the state's #1 research hospital, UF Health is consistently ranked among the best in the nation by U.S. News & World Report. Our discoveries advance care for millions of patients each year. So, it's not surprising that physicians send patients to UF Health from every county in the state and every state in the nation, and from dozens of countries around the world. We conduct landmark translational research that changes lives and moves medicine forward with innovative treatments.

- **Best in Florida for pediatric cardiology and heart surgery**
- **Trauma and emergency patients transported to UF Health from all 67 Florida counties**
- **More than 7,200 patients from 32+ countries treated at the UF Health Proton Therapy Institute**
- **More lung transplants than any other Florida hospital**
- **More than 1,000 patients with movement disorders treated with deep brain stimulation**

Milestones such as these are made possible by unmatched research advances at UF Health — with 8 hospitals, 9 research centers and institutes, 1,400 College of Medicine faculty physicians and a comprehensive team of health care professionals. The quest for answers begins here. Put the power of research to work for you and your patients.
