vitalcare
of GAINESVILLE

Vital Care Specialty Infusion Therapies

Vital Care provides a broad range of Specialty Infusion Therapies to treat patients with chronic and complex issues in the comfort of their own home or an alternate site. Our team of experienced and knowledgeable infusion experts work with the provider to customize a care plan designed to optimize patient outcomes, reduce costs, and increase patient and provider satisfaction.

vitalcare
INFUSION SERVICES

With over 35 years of experience in the infusion industry, Vital Care offers:

- Access to multiple brands through direct manufacturer relationships and limited distribution agreements

National Reach, Local Presence

- National contracts with Aetna, Cigna, Humana, and United Healthcare
- Access to regional and local contracts

Vital Care Makes It Simple!

Call or fax your referral and our team of infusion experts will handle all the details.

ACMS 2024-25 Physicians Directory

Published by the:

Alachua County Medical Society

235 S.W. 2nd Avenue , Gainesville, Florida 32601
Phone: (352) 376-0715 Fax: (352) 376-0811
Web: www.ACMS.net; email: acmsassist@acms.net

The Alachua County Medical Society (ACMS) serves the community and physicians of Alachua County and the 9 county surrounding area. We work with UF Health, HCA North Florida Hospital, The Veterans Affairs Medical Center, the Alachua County Health Department and the Safety Net Collaborative, to assess the healthcare needs of the community and implement plans to respond to those needs. Locally, we fund the We Care Clinic which provides healthcare services to underserved populations in Alachua County.

The ACMS 2024-25 Physicians Directory includes physician listings for Alachua, Bradford, Columbia, Dixie, Levy, Gilchrist, Lafayette, Suwannee and Union Counties. Each Physician is listed and classified by their medical specialty and/or Board Certification. There is an index of physicians in the back of the book to find a specific doctor by name.

Every effort was made to verify all physician information, which was current as of November 2024. Please notify us of any omissions or corrections to the information provided. Visit our website to download an electronic version of this publication (ACMS.net). Follow us on LinkedIn, Facebook, and X.

The ACMS provides physician referrals for those in need of a doctor. Call us at 352-376-0715 to get a recommendation to meet your medical needs.

Jackie

Jackie Owens, ACMS
Executive Vice President

The We Care Physician Referral Network is a community-based initiative that coordinates volunteer physicians, dentists, hospitals, and ancillary providers, that has been serving the medical and dental needs of uninsured and low-income Alachua County residents for over thirty-two years. It is a partnership of public and private institutions, agencies, and individuals that responds to the health care needs of the community's under-served population. A health care board provides guidance to the program in response to community health issues and evaluates the efficacy of the agency's programs.

It is comprised of three components, Primary Care, Oral Health, and Specialty Care. It is supported by physicians, dentists, local hospitals, laboratories, home health agencies, mental health professionals, and a variety of ancillary service providers. Since 1990 the program has received over 45,000 requests for volunteer medical and dental care since 1990. More than half of those requests were met by volunteer professionals. Alachua County Volunteer medical services from 2018 to 2023 totaled \$20,779,414 in 2022 with the cumulative total of volunteer medical and dental services provided to date exceeding \$109,000,000 (value to December 2023).

The We Care model represents the best efforts of volunteer professionals, social services agencies, State and local governments, collaborating to provide for underserved populations in a dignified and effective manner.

Experience Matters

After nearly 60 years of serving healthcare clients, we have the knowledge needed to address your unique concerns—from **accounting** and **tax planning** to **human resources**, **IT** and **wealth management** services. **Let us put our expertise to work for you!**

Check out **AccountingRx**, our **to-the-point** video series featuring healthcare business tips and advice!

REFER YOUR PREGNANT PATIENTS!

NewboRN
Home Visiting

NewboRN Home Visiting is a free program for Alachua County women. After baby is born, a registered nurse (RN) will visit mom at home to assess how she and baby are doing and provide education on breastfeeding, SIDS prevention and more. Our experienced RNs will also connect families to needed resources, such as mental health counseling and financial assistance, and follow-up with you about any concerns.

It's easy to refer patients! Learn more:

www.NewbornHomeVisiting.org

Call: 352-727-3036

Participating agencies:

Healthy Start of North Central
Florida, UF Health, HCA Florida
North Florida Hospital, Florida
School of Traditional Midwifery
Funded by: The Children's Trust
of Alachua County

Acute Care - a level of health care in which a patient is treated for a brief but severe episode of illness, for conditions that are the result of disease or trauma, and during recovery from surgery.

Allergy and Immunology - evaluation, diagnosis and management of disorders potentially involving the immune system.

Anesthesiology - pain relief and maintenance, or restoration of a stable condition during and immediately following an operation or an obstetric or a diagnostic procedure.

Cardiovascular Diseases - diseases of the heart, lungs and blood vessels and managing complex cardiac conditions such as heart attacks and life-threatening abnormal heart beat rhythms.

Dermatology - diagnosis and treatment of patients with disorders of the skin, mouth, external genitals, hair and nails.

Emergency Medicine - recognition, stabilization, evaluation, treatment and disposition of patients with acute illness or injury.

Endocrinology - disorders of the endocrine system such as the thyroid and adrenal glands; includes diabetes, metabolic and nutritional disorders, pituitary diseases, and menstrual and sexual disorders.

ENT - See Otolaryngology

Family Practice - prevent, diagnose and treat a wide variety of ailments in patients of all ages, with special emphasis on care of families on a continuing basis.

Gastroenterology and Endoscopy - digestive system disorders (the stomach, bowels, liver and gallbladder), gastrointestinal and pancreatic diseases. Performs colonoscopy and endoscopic procedures. Treats abdominal pain, ulcers, diarrhea, cancer and jaundice.

General Practice - diagnosis and treatment of disease by both medical and minor surgical methods for patient age groups.

General Surgery - surgeon establishes the diagnosis and provides the preoperative, operative and postoperative care to surgical patients and is usually responsible for the comprehensive management of the trauma

victim and the critically ill. This includes organ transplantation.

Geriatric Medicine - focus on older patients for prevention, diagnosis and treatment and rehabilitation of disorders common to old age.

Gynecology - diagnosis and treatment of diseases of the female reproductive system.

Hematology/Oncology - blood diseases and cancer; treats diseases of the blood and blood forming organs (i.e., spleen, lymph nodes, bone marrow and thymus) as well as neoplastic diseases arising in any organ system.

Hepatobiliary Surgery - replacement of a diseased liver through transplantation with a healthy one from an organ donor.

Hospitalist - physicians who provide care to hospitalized patients only.

Infectious Diseases - infectious diseases of all types and in all organs, conditions requiring selective use of antibiotics, AIDS patients and patients with unexplained fevers, and conditions associated with travel.

Internal Medicine - long-term, comprehensive care provided in the office and the hospital, managing both common illnesses and complex problems for adolescents, adults and the elderly.

Maternal and Fetal Medicine - cares for or provides consultation on patients with complications of pregnancy.

Maxillofacial Surgery - surgical specialists of dentistry who treat conditions, defects, injuries and esthetic aspects of the mouth, teeth, jaws and face.

Neonatal/Perinatal Medicine - care for sick newborn infants.

Nephrology, Hypertension and Renal Transplantation - kidney disorders, high blood pressure, diabetic kidney disease, fluid and mineral balance, dialysis of body wastes when the kidneys do not function, and kidney transplantation.

Neurology - diagnosis and treatment of all categories of disease or impaired function of the brain, spinal cord, peripheral nerves, muscles and autonomic nervous system, as well as the blood vessels that relate to these structures.

Specialty Definitions - continued

Neurosurgery – operative and non operative management (i.e., prevention, diagnosis, evaluation, treatment critical care and rehabilitation) of disorders of the central, peripheral and autonomic nervous systems.

Obesity Medicine - the field of medicine dedicated to the comprehensive care of patients with obesity.

Obstetrics and Gynecology – pregnancy, both normal or problematic, and women's reproductive tract disorders. Includes Reproductive Endocrinology and Infertility.

Oncology/Hematology – see definition for Hematology/Oncology.

Ophthalmology – eye disorders and surgery.

Orthopaedic Surgery – preservation, investigation and restoration of the form and function of the extremities, spine and associated structures by medical, surgical and physical means.

Otolaryngology – diseases and disorders of the ear, nose, throat (ENT) and related structures of the head and neck, including the sinuses, larynx (voice box), oral cavity, and upper pharynx (mouth and throat). Subspecialties include otology/neurotology (ears, balance, and tinnitus), allergy, facial plastic and reconstructive surgery, head and neck, laryngology (throat), and rhinology (nose).

Pain Medicine - or Algiatry, is a discipline within the field of medicine that is concerned with the prevention of pain, and the evaluation, treatment, and rehabilitation of persons in pain.

Pathology – essential nature of disease, especially the structural and functional changes in tissues and organs of the body that cause or are caused by disease, detected through microscopic examination of tissue specimens, cells and body fluids and from clinical laboratory tests on body fluids and secretions.

Pediatrics – physical, emotional and social health of children from birth to young adulthood.

Pediatric Cardiology – comprehensive care for children (from fetal life to young adulthood) with heart disorders.

Pediatric Endocrinology – diseases in infants, children and adolescents resulting from an abnormality in the endocrine glands

(glands that secrete hormones) such as diabetes mellitus; growth failure; unusual size for age; early or late pubertal development; birth defects; the genital region and disorders of the thyroid, of the adrenal and of the pituitary glands.

Pediatric Gastroenterology – disorders of the digestive systems of infants, children and adolescents.

Pediatric Hematology/Oncology – recognition and management of hematologic (blood disorders) and oncologic (cancerous) diseases and knowledge of general pediatrics.

Pediatric Nephrology – kidney disorders in children.

Pediatric Neurology – diagnosis and treatment of neurologic diseases and disorders in children. (see Neurology)

Pediatric Neurosurgery – nervous system diseases and disorders in infants and children, their diagnosis, evaluation, treatment, critical care and rehabilitation, including congenital disorders, neoplasia, trauma, infection and vascular disease.

Pediatric Pulmonology – diagnosis and treatment of lung or airway disorders in children.

Pediatric Radiology – is concerned with the application of all forms of diagnostic imaging to the unique clinical/pathophysiologic problems of the newborn, infant, child and adolescent.

Pediatric Surgery – surgical conditions in premature and newborn infants, children and adolescents.

Physical Medicine and Rehabilitation – coordinate return to optimal functioning in individuals with musculoskeletal and neurological disorders, such as low back injury, spinal cord injuries and stroke victims.

Plastic and Reconstructive Surgery – esthetic, plastic and reconstructive surgery of the body performed on injured or abnormal structures of the body, generally performed to improve functions, but may also be done to approximate a normal appearance.

Plastic Surgery – repair and reconstruction of defects of form and function of the skin and its underlying musculoskeletal system, with emphasis on the craniofacial structures, the oropharynx, the upper and lower limbs, the breast and the external genitalia.

Psychiatry – prevention, diagnosis and treatment of mental, addictive and emotional disorders, such as psychoses, depression, anxiety disorders, substance abuse disorders, development disabilities, sexual dysfunctions and adjustment reaction.

Psychiatry, Child – diagnosis and treatment of mental, addictive and emotional disorders of childhood and adolescence.

Public Health – focuses on the health of individuals and defined populations to protect, promote and maintain health and well-being, and to prevent disease, disability and premature death.

Pulmonary Diseases – lung and airway diseases, such as pneumonia, cancer, pleurisy, asthma, occupational diseases, bronchitis, sleep disorders, emphysema and other complex disorders of the lungs.

Radiation Oncology – (also referred to as Therapeutic Radiology) therapeutic applications of radiant energy and its modifiers and the study and management of disease, especially malignant tumors.

Radiology – evaluation of x-rays and related procedures such as ultrasound, CT scan and MRI.

Radiology, Diagnostic – medical diagnosis and therapeutic procedures using x-rays and related procedures.

Resident/Fellow– medical school graduate receiving specialty training.

Rheumatology – diseases of joints, muscle, bones and tendons such as arthritis, back pain, muscle strains common athletic injuries and collagen diseases.

Student Health Care Center, UF – physicians on staff at the University of Florida Student Health Care Center (infirmary).

Thoracic Surgery – operative, perioperative care and critical care of patients with pathologic conditions within the chest, including surgical care of coronary artery disease; cancers of the lung, esophagus and chest wall; abnormalities of the great vessels and heart valves; congenital anomalies; tumors of the mediastinum and diseases of the diaphragm.

Urology – diagnosis and treatment of disorders of the kidneys or urinary tract.

Vascular Surgery – surgical management of disorders of the blood vessels excluding those immediately adjacent of the heart, lungs or brain.

North Central Florida's Leaders in Maternal and Infant Health

Florida Healthy Start Healthy Start of North Central Florida Coalition

Healthy Start of North Central Florida specializes in home visiting programs that focus on pregnant women, infants, young children, fathers and families. Our programs are:

- Evidence-Based
- Effective and Free
- Easy to Make Referrals To—
Just Call Connect

*Because every baby
deserves a healthy start!*

FOCUS: A one-stop entry point to home visiting programs and resources for pregnant women, infants, young children, fathers and families. Call Connect at 877-678-WELL to refer your patients to the following programs.

FOCUS: Pregnant women, infants and families with children up to age 3. A Home Visitor provides education and support in prenatal care, newborn care, breastfeeding, infant safety, child development and more.

FOCUS: Parent Educators provide parents and caregivers with child developmental information and activities, free screenings and connections to community resources. Eligibility is based on specific family stressors, including developmental delay or disability.

FOCUS: Pregnant women affected by substance use are partnered with a specially trained registered nurse throughout pregnancy until the child's second birthday. The nurse conducts screenings and infant safety planning and assessments, provides family-focused case management, and supports the mother's health and wellness goals.

FOCUS: Fathers, grandfathers or role models that are involved with a child under the age of 3 or men who have a pregnant partner are welcome to participate in T.E.A.M. Dad. The program helps build the self-awareness, compassion and sense of responsibility that every good parent needs.

FOCUS: Alachua County women who give birth at a hospital, birth center or home in the county can have a registered nurse visit them at home to see how they are doing, share information and connect them to resources.

MIDFLORIDA
Your community credit union
www.midflorida.com   

Insured by NCUA.

Offers valid as of January 19, 2020 and may be cancelled at any time without notice. Eligibility requirements apply. See associate for details regarding fees and terms. 1. To qualify for the \$300 incentive, you must open a new Free Checking account and borrow from a new loan account (consumer loan, line of credit or credit card) within 45 days of account opening. The incentive for a new checking account alone is \$200. No dividends are paid on Free Checking. Annual Percentage Yield is 0.00%. Anyone who has held a checking account with MIDFLORIDA in the past year will not qualify for the incentive. Opening a new Free Checking account requires accepting and opening online banking, online bill payment, eStatement, eNotice, direct deposit (\$500 cumulative which must post within 45 days of account opening) and accepting a debit card. The incentive will be deposited to new Free Checking account after the qualifications have been met, and will be reported to the IRS. Minimum to open Free Checking is \$50. 2. To qualify for the \$200 incentive, borrower must refinance an auto loan of \$15,000 or more from another financial institution. Loans of \$5,000 to \$14,999 will receive a \$100 incentive. Credit approval required. Existing MIDFLORIDA loans will not qualify for this offer. The incentive will be deposited to a MIDFLORIDA checking or savings account.
