2022-23 Physicians Directory

Published by the:

Alachua County Medical Society

235 S.W. 2nd Avenue, Gainesville, Florida 32601

Phone: (352) 376-0715 Fax: (352) 376-0811

Web: www.acms.net; email: acmsassist@acms.net

Welcome to the ACMS 2022-23 Physicians Directory. We've expanded our listings this year to include Alachua, Bradford, Columbia, Dixie, Levy, Gilchrist, Lafayette, Putnam, Suwannee and Union Counties. Each Physician is listed and classified by their medical specialty and/or Board Certification. There is an index of physicians in the back of the book to find a specific doctor by name. Every effort was made to verify all physician information, which was current as of July 2022. Please notify us of any omissions or corrections to the information provided. Go to our website to download an electronic version of this publication (acms.net) and follow us on social media:

Jackie Owens, ACMS

Board Certification of Physicians

Board certification status as well as other information about Florida licensed physicians can be found at the Florida Department of Health website at floridahealth.gov under licensing and regulation. Board certification is overseen by the American Board of Medical Specialties® (www.abms.org).

MISSION STATEMENT OF THE AMERICAN BOARD OF MEDICAL SPECIALTIES®

The American Board of Medical Specialties (ABMS) is an organization of approved medical specialty boards. The mission of the ABMS is to maintain and improve the quality of medical care by assisting the Member Boards in their efforts to develop and utilize professional and educational standards for the evaluation and certification of physician specialists.

The intent of the certification of physicians is to provide assurance to the public that a physician specialist certified by a Member Board of the ABMS has successfully completed an approved educational program and evaluation process which includes an examination designed to assess the knowledge, skills, and experience required to provide quality patient care in that specialty. The ABMS serves to coordinate the activities of its Member Boards and to provide information to the public, the government, the profession, and the Members concerning issues involving specialization and certification in medicine.

Approved by the ABMS Assembly, 9/23/93

The Best Care is Preventative Care

You're most successful when you identify and treat a patient's problem before it gets worse, right? The same goes for your practice's finances. James Moore's healthcare CPAs know the red flags that signal issues with your accounting and financial operations. Our proactive approach helps you **maintain a healthy bottom line.**

The We Care Physician Referral Network is a community-based initiative that coordinates volunteer physicians, dentists, hospitals, and ancillary providers, that has been serving the medical and dental needs of uninsured and low-income Alachua County residents for over thirty-two years. It is a partnership of public and private institutions, agencies, and individuals that responds to the health care needs of the community's under-served population. A health care board provides guidance to the program in response to community health issues and evaluates the efficacy of the agency's programs.

It is comprised of three components, Primary Care, Oral Health, and Specialty Care. It is supported by physicians, dentists, local hospitals, laboratories, home health agencies, mental health professionals, and a variety of ancillary service providers. Since 1990 the program has received over 35,000 requests for volunteer medical and dental care. More than half of those requests were met by volunteer professionals. Alachua County Volunteer medical services totaled \$2,318,020 in 2021 with the cumulative total of volunteer medical and dental services provided to date exceeding \$102,000,000 (value to December 2021).

The We Care model represents the best efforts of volunteer professionals, social services agencies, State and local governments, collaborating to provide for underserved populations in a dignified and effective manner.

Thanks to our
Volunteer Physicians,
NFRMC and UF Health!

We Care

Physicians Referral Network

We Have You Covered

As the strongest, most experienced healthcare liability insurer in the nation, MedPro Group has protected physicians and surgeons like you since 1899. MedPro believes those who protect others shouldn't have to worry if they themselves are protected.

The Most Trusted Financial Companies Survey is issued by Investor's Business Daily and TechnoMetrica Market Intelligence, ranking financial companies based on consumer trust. The study was conducted in two phases between July 9 and Aug. 11, 2021, with 343 individuals responding to Phase 1 and 6,578 participants in Phase 2. Seventy-four companies met the requirements for inclusion in the rankings, i.e., 100 or 125 respondents, depending on the category. Phase 1 identified attributes of financial institutions that are most important to consumers in terms of "trust." Phase 2 used the attributes defined in Phase 1 and respondents evaluated companies on a five-point scale based on how much they trusted the company regarding that attribute. Scores were computed by taking the difference between the percentage of respondents giving high and low scores. Percentages were weighted and used to product the Trust Index rating. See <https://www.investors.com/news/most-trusted-financial-companies-survey-methodology/> for the full methodology.

Sponsorship Opportunities!

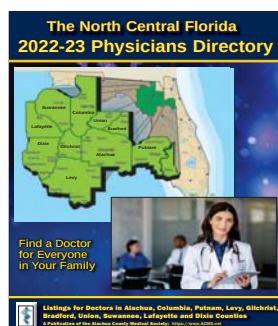

Target your message to the Physicians of Alachua County, Florida, by advertising in the media of the Alachua County Medical Society, a trusted leader in the community since 1878. Our platforms/publications reach prominent medical communities in the 10 county North Florida area. Our annual Physicians Directory is circulated to both physicians and the general public, reaching Alachua, Bradford, Columbia, Dixie, Gilchrist, Lafayette, Levy, Putnam, Suwannee and Union Counties.

Make a Difference in Your Community - Join the ACMS!

WHAT WE DO

The Officers and Board cordially invite you to join the Alachua County Medical Society. Over 600 physicians strong, we dedicate ourselves to making a difference in our local community. Since 1878, we have been fulfilling our mission to improve the community health of Alachua County while maintaining the highest professional and ethical standards in the medical profession.

- The ACMS is the primary professional organization for physicians in Alachua County, providing licensure renewal services for physician members and is the local affiliate of the Florida and American Medical Associations.
- The We Care Physician Referral Network is our free clinic working closely with the Alachua County Health Department, UF, NFRMC, and the Safety Net Collaborative to provide for the ongoing healthcare needs of the community and implementing plans to respond to those needs. We have secured Grant funding for the We Care Clinic, totaling \$338K since 2014. We Care has provided over \$4.2 million in healthcare services over the last 10 years.
- The ACMS offers many resources for UF and UCF residents, and fellows, offering trainees mentorship, training in advocacy, involvement in organized medicine (FMA and AMA) and leadership development within the medical field.
- Quarterly House Calls - the ACMS medical journal featuring experts in the field.
- Annual Physicians Directory - a public service to assist in finding a local physician.
- The ACMS Monthly Lecture Series provides physician members with Continuing Medical Education and an opportunity to learn about changes in the profession from your colleagues and peers.
- With Board members from every hospital in Alachua County, we are able to provide guidance to the local municipalities and the School Board of Alachua County on pertinent healthcare matters.

Dues for membership in the ACMS are \$350 per person, per year. If you are already a member we urge you to renew - your continued support is always appreciated. If you've never been a member, now is the time to join.

Specialty Definitions

Acute Care - a level of health care in which a patient is treated for a brief but severe episode of illness, for conditions that are the result of disease or trauma, and during recovery from surgery.

Allergy and Immunology – evaluation, diagnosis and management of disorders potentially involving the immune system.

Anesthesiology – pain relief and maintenance, or restoration of a stable condition during and immediately following an operation or an obstetric or a diagnostic procedure.

Cardiovascular Diseases – diseases of the heart, lungs and blood vessels and managing complex cardiac conditions such as heart attacks and life-threatening abnormal heart beat rhythms.

Dermatology – diagnosis and treatment of patients with disorders of the skin, mouth, external genitals, hair and nails.

Emergency Medicine – recognition, stabilization, evaluation, treatment and disposition of patients with acute illness or injury.

Endocrinology – disorders of the endocrine system such as the thyroid and adrenal glands; includes diabetes, metabolic and nutritional disorders, pituitary diseases, and menstrual and sexual disorders.

ENT - See Otolaryngology

Family Practice – prevent, diagnose and treat a wide variety of ailments in patients of all ages, with special emphasis on care of families on a continuing basis.

Gastroenterology and Endoscopy – digestive system disorders (the stomach, bowels, liver and gallbladder), gastrointestinal and pancreatic diseases. Performs colonoscopy and endoscopic procedures. Treats abdominal pain, ulcers, diarrhea, cancer and jaundice.

General Practice – diagnosis and treatment of disease by both medical and minor surgical methods for patient age groups.

General Surgery – surgeon establishes the diagnosis and provides the preoperative, operative and postoperative care to surgical patients and is usually responsible for the comprehensive management of the trauma victim and the critically ill. This includes organ transplantation.

Geriatric Medicine – focus on older patients for prevention, diagnosis and treatment and rehabilitation of disorders common to old age.

Gynecology – diagnosis and treatment of diseases of the female reproductive system.

Hematology/Oncology – blood diseases and cancer; treats diseases of the blood and blood forming organs (i.e., spleen, lymph nodes, bone marrow and thymus) as well as neoplastic diseases arising in any organ system.

Hepatobiliary Surgery - replacement of a diseased liver through transplantation with a healthy one from an organ donor.

Specialty Definitions - continued

Hospitalist – physicians who provide care to hospitalized patients only.

Infectious Diseases – infectious diseases of all types and in all organs, conditions requiring selective use of antibiotics, AIDS patients and patients with unexplained fevers, and conditions associated with travel.

Internal Medicine – long-term, comprehensive care provided in the office and the hospital, managing both common illnesses and complex problems for adolescents, adults and the elderly.

Maternal and Fetal Medicine – cares for or provides consultation on patients with complications of pregnancy.

Maxillofacial Surgery – surgical specialists of dentistry who treat conditions, defects, injuries and esthetic aspects of the mouth, teeth, jaws and face.

Neonatal/Perinatal Medicine – care for sick newborn infants.

Nephrology, Hypertension and Renal Transplantation – kidney disorders, high blood pressure, diabetic kidney disease, fluid and mineral balance, dialysis of body wastes when the kidneys do not function, and kidney transplantation.

Neurology – diagnosis and treatment of all categories of disease or impaired function of the brain, spinal cord, peripheral nerves, muscles and autonomic nervous system, as well as the blood vessels that relate to these structures.

Neurosurgery – operative and non operative management (i.e., prevention, diagnosis, evaluation, treatment critical care and rehabilitation) of disorders of the central, peripheral and autonomic nervous systems.

Obesity Medicine - the field of medicine dedicated to the comprehensive care of patients with obesity.

Obstetrics and Gynecology – pregnancy, both normal or problematic, and women's reproductive tract disorders. Includes Reproductive Endocrinology and Infertility.

Oncology/Hematology – see definition for Hematology/Oncology.

Ophthalmology – eye disorders and surgery.

Orthopaedic Surgery – preservation, investigation and restoration of the form and function of the extremities, spine and associated structures by medical, surgical and physical means.

Otolaryngology – diseases and disorders of the ear, nose, throat (ENT) and related structures of the head and neck, including the sinuses, larynx (voice box), oral cavity, and upper pharynx (mouth and throat). Subspecialties include otology/neurotology (ears, balance, and tinnitus), allergy, facial plastic and reconstructive surgery, head and neck, laryngology (throat), and rhinology (nose).

Pain Medicine - or Algiatry, is a discipline within the field of medicine that is concerned with the prevention of pain, and the evaluation, treatment, and rehabilitation of persons in pain.

Pathology – essential nature of disease, especially the structural and functional changes in tissues and organs of the body that cause or are caused by disease, detected through microscopic examination of tissue specimens, cells and body fluids and from clinical laboratory tests on body fluids and secretions.

Pediatrics – physical, emotional and social health of children from birth to young adulthood.

Pediatric Cardiology – comprehensive care for children (from fetal life to young adulthood) with heart disorders.

Pediatric Endocrinology – diseases in infants, children and adolescents resulting from an abnormality in the endocrine glands (glands that secrete hormones) such as diabetes mellitus; growth failure; unusual size for age; early or late pubertal development; birth defects; the genital region and disorders of the thyroid, of the adrenal and of the pituitary glands.

Pediatric Gastroenterology – disorders of the digestive systems of infants, children and adolescents.

Pediatric Hematology/Oncology – recognition and management of hematologic (blood disorders) and oncologic (cancerous) diseases and knowledge of general pediatrics.

Pediatric Nephrology – kidney disorders in children.

Pediatric Neurology – diagnosis and treatment of neurologic diseases and disorders in children. (see Neurology)

Pediatric Neurosurgery – nervous system diseases and disorders in infants and children, their diagnosis, evaluation, treatment, critical care and rehabilitation, including congenital disorders, neoplasia, trauma, infection and vascular disease.

Pediatric Pulmonology – diagnosis and treatment of lung or airway disorders in children.

Pediatric Radiology – is concerned with the application of all forms of diagnostic imaging to the unique clinical/pathophysiologic problems of the newborn, infant, child and adolescent.

Pediatric Surgery – surgical conditions in premature and newborn infants, children and adolescents.

Physical Medicine and Rehabilitation – coordinate return to optimal functioning in individuals with musculoskeletal and neurological disorders, such as low back injury, spinal cord injuries and stroke victims.

Plastic and Reconstructive Surgery – esthetic, plastic and reconstructive surgery of the body performed on injured or abnormal structures of the body, generally performed to improve functions, but may also be done to approximate a normal appearance.

Plastic Surgery – repair and reconstruction of defects of form and function of the skin and its underlying musculoskeletal system, with emphasis on the craniofacial structures, the oropharynx, the upper and lower limbs, the breast and the external genitalia.

Psychiatry – prevention, diagnosis and treatment of mental, addictive and emotional disorders, such as psychoses, depression, anxiety disorders, substance abuse disorders, development disabilities, sexual dysfunctions and adjustment reaction.

Psychiatry, Child – diagnosis and treatment of mental, addictive and emotional disorders of childhood and adolescence.

Public Health – focuses on the health of individuals and defined populations to protect, promote and maintain health and well-being, and to prevent disease, disability and premature death.

Pulmonary Diseases – lung and airway diseases, such as pneumonia,

for their continued support!**

Hope is Here!

Physicians die from suicide at **twice** the rate of the general population. That's worse than active duty military and worse than incarcerated prisoners. We're working to change that. You can help. Find out how.

Nearly every doctor knows colleagues who took their own lives. Learned helplessness, stress, moral injury, and depression are killing our physicians. We CAN change this! Check out our action plan at <https://rb.gy/vppf8v>.
